

SQL Practice Queries

1. SELECT display the ENAMES with the initial letter capital
e.g.

EMP

ENAME

SCOTT

KING

output

Scott

King

2. SELECT display the ENAMES centre-justified. Assume screen width is 60
characters.

e.g.

ENAME

SCOTT

KING

output

28 *'s SCOTT 27 *'s

28 *'s KING 28 *'s

3. SELECT display the **starting** position of the **second** occurrence of the string 'un' in the ENAME column.

e.g.

ENAME

Arun Purun

Tarun Arun

Sirun Kirun

Nutan Purun

output

9

9

10

0

4. SELECT spell out the SAL column up to 5 million (ignore paise)

e.g.

EMP

SAL

3000

4500

output

Three thousand

Four thousand Five hundred

5. SELECT display the ENAMEs with the vowels removed

e.g.

EMP

ENAME

King

Scott

Anita

output

Knq

Sc tt

nt

6. SELECT sysdate() - hiredate

Display the experience of the employees in years, remainder months, days, hours, minutes, and seconds

e.g.

HIREDATE -> 2023-07-01 10:15:04

SYSDATE -> 2024-09-24 14:30:45

output

1 year, 2 months, 23 days, 4 hours, 15 minutes, 41 seconds
